

About the Rock Island Trail

RideKC

The Rock Island Trail is a shared use path primarily comprised of 3/8" crushed rock. Phase I opened June 1, 2019 and begins at Jefferson Street in Lee's Summit, encompassing 6.4 miles to Brickyard Road in Kansas City. Phase 2 is scheduled for completion in 2020 and will extend the trail 7.1 miles from Brickyard Road to the Truman Sports Complex. Future connections to Greenwood and the Little Blue Trace are planned, pending grant funding. The trail preserves the corridor for future transit by the KCATA.
